★ **A New York Experience in the Bay Area** ★

I grew up in NY; pizza, to me, is a comfort food and something that's more than just something to eat.

It's not a fancy food. It's a delicate balance of crust, sauce, & cheese; without that foundation, you can't make great pizza. Many places pile on ingredients that confuse the palate - we don't do that.

If you've never been here before, let me offer this suggestion - try a plain slice & taste all the flavors in balance.

Once you know how the base pie tastes, add your favorite items. We offer combination pies & slices so we can always make something custom for you and **we use only the best ingredients. Period.**

In NY, if your service or food quality is less than exceptional, you'll be out of business in six months.

We live by that standard here at A Slice of New York.
